

THE POCHE DAILY RECORD.

FRIDAY, MARCH 19, 1975.

The Business Office of the Poche Daily Record has been removed to Lynch's Brick Building, Lacey street, near Main, where all orders for work will be attended to by Geo. T. Gossard.

THE POCHE DAILY RECORD is the Cheapest Inland Paper and Advertising Medium on the Pacific Coast. Weekly Subscription, 50 Cents. Advertising at corresponding Low Rates. THE RECORD Circulates all over the Pacific Coast, and also in the greater portion of the chief Atlantic Cities and Eastern States generally.

ADDITIONAL TESTIMONY.

In New York on the 5th inst., Major M. B. Delaney, a colored man of intelligence and standing, delivered a lecture on the situation of the South. Major Delaney served with distinction during the war, during which he gained his rank while acting on the field under General Sickles. Since the war he has lived in the South and is able to speak with some authority as to the condition of that part of the country, especially as to the relations existing between the whites and the negroes. During his lecture Mr. Delaney said: "During the political excitement which followed the war, these men from the North, who had no interest either in the white man or the negro, stood between the blacks and the whites and warned the blacks away from impending ruin. While performing this kind and charitable office they had one hand elbow-deep in the pocket of the negro and the other shoulder-deep in the pocket of the white man." Which is an entire corroboration of the views we have all along taken of the matter. That the post bellum troubles of the South were caused entirely by the mischief makers so accurately described by Delaney. The meeting where the lecture was delivered was presided over by Wm. Cullen Bryant who was supported by Peter Cooper.

The time has come when men and good measures must take the place of mere partisan claims; and though it may take years to train people to that independent action which ought to be exercised by all intelligent men, the day is certainly not very far off when political corruption shall be driven from office and be compelled to skulk out of the sight of honest citizens—[Eureka Sentinel].

The above remarks are used by the Eureka Sentinel in reference to the results of the New Hampshire election and are very much to the point. The masses of the people have become most distrustful of all parties, looking at them as mere political organizations and daily growing more reluctant to endorse measures that are merely partisan in their character. The cuckoo notes uttered by either of the two great parties are losing all the power they ever possessed and men and masters are judged more on their individual merits than on account of belonging to or being supported by this or the other party. This great and remarkable change is one of the most to be noted by the mass of a parcel of long-tongued, brazen-checked demagogues, but are determined to do their own thinking and draw their own conclusions. Already the mass of independent thinkers are enormous and is rapidly increasing in numbers, and are very long will no doubt mould and direct the political affairs of the country. This will not be done by acting as a party, for real individual independence vanishes when bound by an alliance with any party, even if that party chooses to adopt the name of Independent. The work of the independent citizen will be done by selecting the most eligible and reliable candidates for official position and supporting the best measures without caring anything about the party who originate the proceeding or to which the candidate belongs.

In reply to some remarks made by the Eureka Sentinel, the Austin Revell says that, in spite of all obstacles and disappointments there will be a determined effort made to push the Austin and Battle Mountain Railroad to completion. The Revell also says that it believes those efforts will be successful. We hope so too. The completion of the railroad will have a most beneficial effect on Austin and tend to make it the supply center of a large extent of country, and also to greatly stimulate mining enterprise. If Austin is successful in building its railroad and in the concentration of ores, its future will be very bright.

In New York the Ladies' Protective Union and Directory has been organized for the purpose of remedying the servant girl nuisance. It is already in active operation and having a most beneficial influence both on servants and their employers.

In the Hoodlum City the folks have a weakness for imprisoning, beating, starving the witnesses that unfortunately for them admit that they were spectators of some act of depravity that some of the playful hoodlums of the Bay City are so fond of committing.

The San Francisco Post says that the blame for the escape of Henry Cassie the poll tax forger rests upon the Sacramento police.

On the 12th inst. one of those gentle zephyrs that are peculiar to the Coast, did considerable damage in Virginia and Gold Hill.

On or before the 28th instant practicing physicians are required to file a copy of their diplomas in the office of the County Recorder.

The hydraulic miners of California are already complaining of a short supply of water.

Members of the medical fraternity are reminded of the fact that in accordance with an Act passed at the last session of the Legislature of the State of Nevada they are required to file a copy of their diplomas in the County Recorder's office on or before the 28th instant.—[G. H. News.]

POLICY OF THE FUTURE.—There is some talk among members of the last House, who are still here, and Senators of moderate views, about the propriety of holding a meeting of prominent moderate republicans for consultation, and, possibly, for a declaration of policy, with the intention of setting the party right before the people, and relieving it of the odium of such measures as the Force bill, and of the imputation of countenancing as a party, revolutionary and oppressive measures in the South. It is thought by many moderate men that such a declaration is advisable and even necessary; that without it the party will be in a false and indefensible position before the country. Others, however, argue that the platforms in the fall elections will suffice, if they are properly made and if moderate republicans like Foster in Ohio, are nominated, to show where the party stands. Nothing is, therefore, as yet agreed on, but it is evident that the moderate republicans mean to rule the party and are not hereafter going to be put down or allow the extremists to rule or browbeat them.—[N. Y. Herald.]

Referring to the Force bill Andy Johnson said: "I can see how that bill, in the hands of a bad man—such a man as Grant, a man seeking only place, power and puff—Grant is a man of greed—I can see how in his hands this bill might have worked incalculable injury. I do not say that it certainly would have done so, but there was great danger. The country had been in the proper condition, if all the other necessary circumstances had been present, I can very easily see how Grant might, by a suspension of the writ of habeas corpus have used the people of the South as he might have overturned one State government after another until not only the election of 1870 would be assured to the Republican party, but the thing might easily end in an empire. Mark, I do not say this was the inevitable result of that law. I say it was a possibility, and a dangerous one.—[New York Herald.]

ATTEMPTED BREAK AT SAN QUENTIN.—During the latter part of February a bold plan of escape was arranged by about 20 of the convicts at San Quentin. The plan was to break through the walls of the prison, and escape to the State authorities, and about the time the convicts were ready to force their way through the guards they were driven into a large room and massacred. On searching the desperadoes it was discovered that nearly all were armed with knives. A set of false keys was also found in their possession. There are at present 1,100 convicts confined in the State Prison, controlled by a guard of 45 men armed with Henry rifles.—[S. F. Post, 11.]

BALDWIN'S NEW BANK.—The Commercial Bank was incorporated on Monday. The purposes are: "To transact a general banking business of deposit, loan, discount and exchange; to collect rents, interest, dividends and moneys; to act as agent for such parties or incorporations as may employ it, and to make payments of moneys for absentees; also, to do a general commission and collection business." The directors are: E. J. Baldwin, Giles H. Gray, A. J. Lawrence, A. J. Severance, Seth Pickman, R. H. Lloyd, Edward Bosqui, Wallace Emerson, F. B. Taylor, John O. Hanson, G. A. Trevelyan and John P. Moore. The capital stock is \$5,000,000, divided into \$50,000 shares.—[S. F. Chronicle.]

Considerable sums of money have been wagered the last week at long odds that the Stock Report newspaper, printed 2000 feet away from the Stock Board, could not get its edition out and delivered upon Montgomery street as soon as the issue lists of the Board. Yesterday the contest came off, and in two minutes from the time Mr. Logan's gavel ended lists by five minutes. This was the fastest feat in the newspaper line ever accomplished in this or any other city in the world.—[S. F. Stock Report, 11.]

The Santa Cruz narrow-gauge railroad, which has just elected its officers and commenced its survey, will run from the Santa Cruz line to Pigeon Point, from Pigeon Point to Pescadero, thence to San Gregorio, thence to Spanish Town, and thence by the shortest practicable route to San Francisco. This route will tap a section of country rich in agricultural products, dairy produce and lumber, and the road cannot fail to do a good business.—[S. F. Post, 12.]

Whipping wives does not appear to be popular business down at Salinas. The index tells of a man in that vicinity who beat his weaker half the other day, and the boys collected and tied him up by the neck to a limb. The index adds that they cut him down before he was dead; but it thinks the proceeding will nevertheless prove an efficacious lesson.—[S. F. Call.]

The Board of Prison Commissioners were in town yesterday, on business connected with the new prison building. From all we knew of their views, it may be possible that they will fence the grounds this summer and plant some trees. But that will be about all the work done this year. Next year, when the Presidential contest comes on, there will be lots of men at work.—[Reno Journal, 13.]

"Poker John," the Pinte, who has committed such havoc in the finances of his brethren within the last few days, made his appearance on C street this morning, arrayed gorgeously in a large crimson table cloth. He was warmly congratulated on all sides, but preserved the coolness and nonchalance of a professional gambler.—[Virg. Chron., 13.]

New Books.—Mrs. Stowe's forthcoming novel, "We and Our Neighbors," is to start out in a first edition of 20,000 copies. Another book on the now popular subject of heredity and hybridism has been written by E. W. Cox, of London.—[N. Y. Herald.]

We were mistaken in stating that a compromise had been effected between the Justice and Woodville Companies. The Justice folks declare that they have no compromise to make; that they stand on their own bottom, asking neither fear nor favor.—[G. H. News, 13.]

The weather of late, although apparently very pleasant, has been decidedly unhealthy. We infer that such is the case from the large number of people, young and old, who are afflicted at present with climatic diseases.—[G. H. News, 13.]

A large number of cases of sickness are reported in Silver City at the present time. The principal ailments enumerated are typhoid fever, inflammatory rheumatism, pneumonia and colds.—[G. H. News, 13.]

A ledge of good ore, three feet in thickness, was found at the bottom of shaft No. 2, in the Suro Tunnel, before the workmen were driven out by the water several months ago.—[Virginia Chronicle, 13.]

At present it is almost impossible for a new comer to find a room to sleep in either in Virginia or Gold Hill, everything in that line being already taken.—[G. H. News, 13.]

A miner named Alexander Christian had the fore finger on his left hand smashed yesterday while running a car in one of the drifts of the Dayton mine.—[G. H. News, 13.]

At a meeting of the Board of State Prison Commissioners held on Tuesday, all the members being present, Honorable Jewett Adams, Acting Governor, offered a resolution setting forth an unfavorable showing of the official conduct of Presley C. Hyman, the Warden of the Institution, and further resolving that the said office of Warden be declared vacant. The question being put upon the adoption of the resolution, it was defeated: Ayes 1, Noes 2, the negative votes being cast by Attorney General Kittrell and Secretary of State Minor. This seems to be a virtual endorsement of Mr. Hyman's course—(which same is a squelching of the proceedings against him, the Legislature, we had visited the prison yesterday before learning of the defeat of this resolution of the Acting Governor's, and being favorably impressed with what we saw there, are now prepared to say, without qualification or mental reservation, that we are very glad indeed that the Penitentiary is going to have Mr. Hyman's resignation for some time to come.—[Caspar Appeal, 13.]

GENERAL FREMONT.—W. Frank Stewart, in proposing the name of General John C. Fremont as a candidate for Governor of the Pacific Coast, delivered a neat address, in which he referred to General Fremont as almost the last Pioneer of the Pacific Coast, and placed a high encomium upon his courage and enterprise in exploring the Great Basin. He also reviewed the cause of his trial in France, and his sentence to the gallows, in his parallel in American law. His remarks were received with great applause. It requires a notice of two weeks, before a vote can be taken on the admission of a new member, and at the end of that time General Fremont will be duly elected.—[Virginia Chronicle, 13.]

After the Board of Brokers this noon voted \$1000 to the relief of the Nebraska sufferers, Mr. M. Jasper McDonald moved to appoint a committee to solicit subscription. Mark L. McDonald amended the proposition by making the subscription payable at once, and headed the list with \$100. A fire of subscriptions followed, until \$7345 were collected, making \$8345 in all. On searching the desperadoes it was discovered that nearly all were armed with knives. A set of false keys was also found in their possession. There are at present 1,100 convicts confined in the State Prison, controlled by a guard of 45 men armed with Henry rifles.—[S. F. Post, 12.]

Having fitted telegraph instruments, connecting direct with the Board of Brokers, the San Francisco Stock Report is now enabled to put the transactions of the Board in type as fast as the counters and desks of its subscribers within five minutes after the hammer of the Caller announces the close of the session.—[G. H. News.]

The Grass Valley Union says the roughest thing on the Beecher-Tilton crowd we have yet heard. It asks Victoria Woodhull if she does not know that if she gets involved in the scandal it will damage her reputation!

The Sierra Nevada Mining Company are prospecting to ascertain if it still contains rich ore.—[Virginia Chronicle, 13.]

Prospect Mountain.—From S. J. Beebe we learn that considerable work is being done on the western slope of this lofty range.—[Eureka Sentinel, 14.]

Tilton doesn't seem to have been much

SAN FRANCISCO STOCK REPORT.

SAN FRANCISCO, March 19.

SHARPS' MORNING SALES.

915 Ophir—92 1/4 93 1/4 94 1/4 95 1/4 96 1/4 97 1/4 98 1/4 99 1/4 100 1/4 101 1/4 102 1/4 103 1/4 104 1/4 105 1/4 106 1/4 107 1/4 108 1/4 109 1/4 110 1/4 111 1/4 112 1/4 113 1/4 114 1/4 115 1/4 116
